LOCAL STOCKS IN 'FRISCO

REPORTED HEAVY DEMAND FOR HAWAIIAN SECURITIES.

Local Brokers Say There are No Stocks on Sale at the Coast Except Those Listed on the Board.

Letters received by the Alameda from parties interested say there is a big demand for Hawaiian securities in San Francisco, but there are none to be had in the market. That since the annexation of the islands there has been a constantly increasing inquiry concerning Hawaiian sugar stocks, and a knowledge of the large dividends paid has already caused a considerable demand for them. One gentleman, who had a few Hawaiian stocks, writes that he had sold them all at a good profit and was coming down to buy more. That he did not come on the Alameda was because he could not secure proper accommodations. Other reports say that some \$300,000 of Hawaiian securities have been disposed of lately, in San Francisco, not including Hawaiian Commercial, Hana and Hutchinson.

A prominent local stock broker who has San Francisco connections, when questioned about the matter today, said: "I don't believe there is anything in it. There is no speculation in San Francisco in Hawaiian stocks except in the three that are listed on the stock board. I know pretty much where all the stock has gone to that has been sold since the local board went into operation and beyond one lot of thirty shares of Oahu that I bought for a Honolulu man now in San Francisco the sales are all for local account. There may have been a few private sales of isolated stocks between friends but no such amount as \$300,000 has changed hands there. There will be no speculation in Hawaiian securities in San Francisco until they are regularly listed on the board there. I only wish there was."

STOCK EXCHANGE. There were no sales made on the Exchange this morning nor no exchange board sales reported.

Bids of 142½ for Oahu assessable and 157 for Oahu paid up were made but found no sellers. Asking prices for other stocks were: Ewa, 230; Hawaiian Sugar, 175; Honolulu, 310; Honokaa, 350; Kahuku, 140; Kipahulu, 110; Oahu assessable, 145; Olawalu, 130; Paia, 230; Pepee, 205; Pioneer, 385; Wailuku, 285; Waimanalo, 195; Wilder Steamship, 120; Inter-Island, 155; Hawaiian Electric, 202½; Mutual Telephone, 144.

BIG CUSTOMS RECEIPTS. Collector Jackson of San Francisco reports the receipts of the custom house for the month of September as \$469,684.79, which is nearly \$200,000 more than the receipts for September, 1897. The receipts for one day were \$50,000. The increase is due to the advanced business prosperity of the country under Republican administration.

SIGNED THE DECREE. In the equity case of Melekina and Kaluna and others against Hana Kuoha and her husband, defendants, a bill to set aside a deed, Judge Perry has signed a decree ordering and adjudging that the deed in question be cancelled and set aside forthwith to execute and deliver to plaintiffs a deed of five-sixths interest in the lands in question.

STILL MORE STEAMERS

NORTH GERMAN LLOYD INVADE THE PACIFIC.

Asserted That This Big Company will Put on a Line Between the Coast and Manila.

The North German Lloyd Steamship Company is going to run a line of steamers between this or some other California port and the Orient, says the San Francisco Bulletin. The company has not yet decided whether the line shall be operated from San Francisco or a port south of here. Dr. Weigand, general manager of the big corporation, is in the city overlooking the ground, but has not yet reported to his office the result of his investigation.

For some weeks past there has been a rumor in business circles that the steamers of the German company were to sail from here, but only the agent of the concern could give any information, and this he refused to do. It is pretty generally understood however that a number of responsible business houses have been approached and requested to give their opinions of the feasibility of putting on first class boats from here to Honolulu, Japan and Hongkong.

Mr. Herman Oelrichs is agent for the North German Lloyd in this city. Dr. Weigand and his party are the guests of the gentleman. Neither Dr. Weigand nor Mr. Oelrichs care to discuss the subject of the line, but it is learned from other sources that the corporation will certainly put on two, and perhaps three steamers, and the only question that is to be decided is, at which Pacific coast port the company's offices and docks will be located.

The North German Lloyd Steamship Company is one of the largest and most prosperous steamship companies in the world.

Two large steamers are being constructed in Europe for the Lloyd line, and when the vessels are completed it is surmised that the new ships will be placed on the route between Bremen and Hongkong, and two of the ships now operating on that branch sent to the Pacific coast. There are at present four vessels plying between Bremen and the Orient.

The annexation of the Philippines or even the retention of a port of entry at Luzon, would mean the establishment of a number of lines of steamers between Pacific coast ports and Manila and Hongkong.

THE SALVATION ARMY. Captain and Mrs. Merriweather are Now in Charge Here.

Staff Captain and Mrs. Merriweather have just arrived in Honolulu as the successors of Adjutant and Mrs. Simonson, in charge of the Salvation Army work on the islands. They are both experienced officers, having for a number of years had charge of the army work in some of the largest cities in the states; also having had charge, as district officers, of the work in Florida and Georgia, and for three years of the Connecticut and New York division. Their last command in the states was of the California Young Men's Training School, located at Oakland. A grand public meeting will be held in the Salvation Army hall on Sunday, at 8 p. m. Miss Viola Monroe, who helped to open the army work in this city, will be present, and will render some of her beautiful songs. The staff captain and his wife are good singers, as well as being very interesting speakers. All are invited to attend.

DISILLUSIONED. Business in Porto Rico is reported at a standstill owing to the fluctuations of the local currency just at the time the planters need money for their crops. They are offered mortgage loans at 18 per cent interest, but they can do nothing until the rate of exchange is fixed. This government's fiscal agents believe that it should be about two for one, and will probably report on the subject to the treasury department. The fiscal agents also say that many of the speculators who flocked to Ponce are returning to the United States disillusioned and convinced that the island is not an Eldorado. So Hawaii is not the only place where the ardent speculator gets disillusioned.—Bradstreet's.

WHY NOT BUY A SINGER? You want a sewing machine? Then why not buy a Singer; there has been more of them sold than any other make. They wear longer, run lighter and do better work than any other make. They have never been a cut price machine, the workmanship on the Singer will not admit of cut prices. A few dollars in the original cost between a good machine and a poor one counts for nothing. B. SHIPS THAT DEWEY SANK

THEIR CONDITION DESCRIBED BY A MONTANA MAN.

Life in Garrison at Cavite—Insurgents Starving Their Spanish Prisoners and Getting Troublesome in Manila.

An officer of the First Montana infantry writes to a friend here from Cavite under date of September 31st: "The Manila fight was over before we arrived. We found six troops of the Fourth cavalry, the South Dakota regiment and a battery of the Sixth artillery stationed here, but the Dakota regiment was sent to Manila today, as the insurgents are said to be getting gay there, and the cavalry went to Subig Bay yesterday. We have lost three men since landing, but none on board ship. It is very warm here and although this is the rainy season we have seen very little wet weather. The town of Cavite is simply a dirty Asiatic bunch of adobe and stone roosting dens. The natives are filthy and dirty. We are quartered in the barracks and buildings formerly occupied by the Spanish soldiers and officers. Our battalion was first ordered to quarters in a lot of old wet casemates but an appeal was made to the commanding officer and we were given houses in the town, so we all sleep upstairs now. Some of the men were coming down with malaria from the wet casemates and sleeping too close to the ground, but the general health is good now.

"We have about 12,000 Spanish prisoners in Manila. The ships Dewey sank lie in the bay with spars and upper decks only above water. There seem to have been some good ones among them. The Christina carried eight breech loading rifles of about seven inch calibre. All the ships now show evidences of fearful punishment. One that lies about 300 yards back of my quarters has her guns standing on end and the gun shields knocked clean loose. The dead on board smell pretty loud when the tide is out.

"The insurgents have two posts in Cavite and have some Spanish prisoners who, I think, are being starved. They look like it. The insurgents I have seen don't amount to much. I think we could handle a couple of regiments of them out of town in an hour. I suppose you are all under the Old Flag, but we have no news of it yet. The mosquitoes here are awful and monkeys sell for 50 cents each."

CHINESE CONSULATE. The Chinese Consul Yang Wei Pin has secured the Maerten property, just Walkiki of Thomas Square, between Young and Beretania streets, and as soon as it is made ready for him will be his residence and the Chinese Consulate. This will probably be in about two weeks. The house is a large one and the grounds extensive.

In the meanwhile the rooms of the United Chinese Society on King street near Nuuanu have been tendered and accepted as the Consulate. Wong Kwai and Goo Kim Fui are the vice consuls.

BOARD OF EDUCATION. At the special meeting of the board of education yesterday afternoon the committee on teachers, to which, with Mr. Von Holt, had been referred the matter of Professor Hilts suspension, unanimously reported exonerating him from the charge of neglect of duty. The committee found that Professor Hilts had not only not neglected his duty, but had arranged a course of study in drawing for all the schools, preparing written instructions for the teachers, besides holding teachers' meetings for oral instruction and consultation every week. Under his direction drawing was now taught in more schools than ever before.

The report was adopted. S. R. Dowdle was given a position in the Paauilo school.

Inspector Townsend's recommendation to raise the Ulupalakua school to the fifth class was adopted.

A REPLEVIN SUIT. In the replevin suit of K. Lazarus vs. Joseph O. Carter, recently decided by the supreme court an order has issued to the district magistrate to take cognizance of the same and carry out the provisions of the decision.

HOT FOOTBALL TOMORROW

THE PENNSYLVANIAS AND TOWN TEAM PLAY.

Line Up of the Local Eleven—Soldiers Have Some Crack Players—Cricket Pau for the Present.

An exciting game of football may be expected tomorrow afternoon. The men from Pennsylvania have some players with big college reputations. They have been practicing and have the prestige of their state and military organization to sustain. Their comrades in arms are interested and the Pennsylvania eleven may be counted on to do good work.

The town team are going to fight for victory. They are on their mettle and will employ their best tactics. The line up of the town team is as follows:

Center, Houghtaling; right guard, H. Cockett; left guard, L. Cockett; right tackle, Prince Cupid; left tackle, J. Lane; right end, A. Lawrence; left end, D. Koff; quarter back, G. Waterhouse; right half, Sam Johnson; left half, Walter Camp; full back, Louis Singer.

The game will be played at the old baseball grounds at 4 o'clock. A very large attendance is expected. A great many of the soldiers will be there.

Tickets can be secured at the gate. The cricketers are not going to play any more cricket until the British man of war expected by the first of the year, at the latest, arrives. They do not wish to clash with the football players, for many of the cricketers play football. Besides there has been a season of twenty-two months of cricket, and it is felt that a break in continuous play will be beneficial.

Following the season of College Association football there will be a season of the Rugby game. Three teams have already been organized, the Iolani College team, the Town team and the Regiment team.

WORKMAN INJURED. B. Kalua employed by the Honolulu Iron Works, met with an accident this morning that sent him to the hospital. He is employed in the machine shop, but went into the pattern shop. His arm caught in a band saw and was severely injured. He was taken to the Queen's hospital.

LAST OF THE MOHICAN. The Mohican, one of the old time relics of the navy has been ordered out of commission, and it is more than probable that she will go to sea no more. The navy in general will be glad of it, for a man took more chances in going to sea in her than he did in going to war in one of the new craft. The Mohican has seen much service, but many years ago she was a back number. There is no room for her class in the new navy. A board of survey has condemned her boilers, and in a few days she will be relegated to Rotten Row. Her crew will no doubt be sent to join the Asiatic fleet.

NEW LUMBER SCHOONER. EUREKA, Cal., September 27.—A new four-masted schooner was launched today at Fairhaven from H. D. Bendixen's ship yard and christened the James H. Bruce, as a compliment to the well known underwriter, Captain Bruce of San Francisco.
